ABOUT ME

I am an enthusiastic IT Associate with a strong foundation in programming languages (C#, VB.NET, ReactJS), web development (HTML, CSS, JS), database management (MySQL), and UI/UX design. I possess excellent communication, critical thinking, teamwork, and problem-solving skills.
Currently, I'm actively upskilling in Angular at Power Learners Project Organization, further solidifying my front-end development expertise.

WORK EXPERIENCE

Havalaa Technologies LTD

Product Designer - Contract   **JULY 2024 - AUG 2024**

- Designing intuitive and minimalist UI that communicates a clear message or function per page.
- Developing wireframes, prototypes, and high-fidelity designs using Figma, ensuring simplicity and user engagement.
- Working with the development team to ensure design fidelity in the final product.
- Continuously refining designs to enhance user experience and interface aesthetics.
- Conducting User research

Jomo Kenyatta University Of Agriculture and Technology

ICT Support - Attachee   **MAY 2023 - AUG 2023**

- Managed and maintained the university's network infrastructure, including hardware and software systems, specializing in VOIP configuration and switch management.
- Provided technical support and training to faculty, staff, and students. Resolved network and software issues through various support channels.

CERTIFICATIONS

- Responsive Web Design Essentials - HTML5 CSS3 Bootstrap

- Figma UI UX Design Essentials

- Overview of IoT Technologies

- Overview of Artificial Intelligence

- Artificial Intelligence fundamentals

- Development and Basic Concepts of Cloud Computing

- Cloud Advanced: Architecture and Technologies

- Huawei certified ICT associate

SKILLS

- Project Management
- C# and VB.NET
- Angular
- Reactjs
- HTML, CSS and JS
- Database skills (mySQL)
- UI/UX Skills
- Networking skills
- Effective Communication
- Critical Thinking
- Teamwork and Colaboration
- Problem-solving skills

LANGUAGES

- English (Fluent)
- Swahili

MY PROJECTS

1. SMART PARKING STSTEM

- Using the IoT based parking system I made it easy for drivers to access the parking slot available over the internet. This system completely automated the car parking procedure from entry to the exit. I used Adafruit cloud platform to store and process parking data

2. ELECTRONIC LEARNING WEBSITE

- I designed an E-learning platform focusing on integrating set of services that enhances education. The site will help users to select the right platform for their training.

3. E-COMMERCE ADMIN DASHBOARD

- I developed a Responsive Admin Dashboard For an Ecommerce Website using HTML, CSS, and JavaScript. The dashboard has dark and light options

4. GYM - WEBSITE

- This is a front end gym site, that offers features like session bookings, Training booking and tips for body fitness.

5. QUIZ APPLICATION USING JS

- I developed a quiz application using javaScript only, you can select the level of difficulty for your quiz and also you can set your favorable time per question and also you can select any category you like (e.g politics , Mathematics etc)

6. MY PORTFOLIO

- Currently, I am developing my portfolio using HTML, CSS and JavaScript. I am using frameworks like bootsrap, reactjs and Tailwind.
